East Coast Builders Conference (ECBC) Announces Dates for 2017

Atlanta, GA – The East Coast Builder’s Conference – ECBC – is a two-day conference and tradeshow taking place May 4- 5, 2017 at the Cobb Galleria Centre in Atlanta that connects residential homebuilders with manufacturers and service providers through education, exhibition and networking. The event will feature 40,000 square feet of exhibit space showcasing over 200 companies offering everything from building materials to technology solutions for residential builders, remodelers, kitchen and bath professionals, architects and designers Exhibitors will have the opportunity to demonstrate new product advancements on a vibrant stage located at the epicenter of the showroom’s floor.

“The ECBC is today’s residential building, remodeling and construction industry “must attend” conference event,” said Verne Packer, ECBC executive producer. “Within a two day span, our event will host thousands of East Coast builders, remodelers, contractors, designers, architects and engineers from across the East Coast against a backdrop that is very conducive to conducting business. We have programmed our conference to reflect the needs of all who attend.”

New to this year’s conference are the following:

- **Meet The Builder Program** – 30 leading East Coast builders will be hosted at this dynamic event, where builders and manufacturers are brought together in a rapid paced, streamlined environment.
- **Smart Home Technology Pavilion** – this new ECBC element will highlight the best the industry has offer in smart home technology for residential construction.
- **OPN – Outdoor Products Network** – will showcase all the up to the minute Outdoor Living products and services in one inclusive area; envision: landscaping, decking, water features, grills, fire pits, pools/spas, patios and outdoor kitchens operating seamlessly together.
- **B.U.I.L.D Awards** – the B.U.I.L.D. awards will celebrate the best and brightest manufacturers and builders in the residential construction industry.
